

Barrel Clamps

Barrel Clamp - A Barrel Clamp is actually a mechanical or hydraulic attachment designed for a lift truck. It could be utilized so as to squeeze the object you want to move with the lift truck and is usually utilized for handling paper rolls, barrels, and kegs. Several types of barrel clamp accessories also have a rotate function. Like for example, the rotate function allows the one operating the forklift to be able to insert a vertically stored paper inside the horizontal intake of a printing press.
