

## Meritor Parts

Meritor Parts - Meritor is a leading international supplier that is proudly built on a one hundred year tradition of quality and service. They focus on a broad range of integrated systems, modules and components to original machine makers and the aftermarket for the transportation and industrial sectors.

Meritor prides itself in the company's unique energy and believes that this energy contributes to their competitive advantage within the worldwide operations. The business values their customers and wants to ensure their success while anticipating their diverse requirements. Meritor begins with a culture that values diversity of individuals and their broad thought processes. Operating in 19 nations and hiring more than 11,200 individuals, Meritor promotes innovation and collaboration among a team of experienced professionals.

Meritor strongly believes in only hiring future focused workers. These top-caliber people can rapidly adapt to changing environments and freely exhibit the level of performance and commitment considered necessary to obtain results for the competitive market environment. The company empowers their teams to make sound business decisions so as to enhance the overall success of the company. In return, Meritor offers all their staff various opportunities for personal and professional development.

The Advanced Engineering team is on the forefront of components and system engineering. This includes drivelines, axles, suspension and braking systems utilized for heavy duty and medium trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is developing. They started a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives that represent the entire Asia Pacific region. This team is also responsible for supporting the requirements of all their worldwide engineering staff.

Meritor's dynamic and customer focused Quality team is committed to ensuring optimum processing at their production plants and aftermarket distribution facilities which are located around the world in 19 nations and in 5 different continents.

They have their supplier network which is specially located so as to support the growth of the business. Every regional team has globally supported initiatives, quality systems and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a data-driven, fact-based method to decision making in every aspect of the trade. The DFSS or otherwise referred to as Design for Six Sigma ensures product reliability within every region. The team is likewise included transactional Green Belts who make use of Six Sigma tools to business processes and implement lean techniques.
